

EXECUTIVE LEADERSHIP COACHING

High-performing leaders find themselves placed in demanding workplace situations precisely because of their leadership skills. Yet workplace challenges can also impede a leader's ability to reach peak performance. Obstacles can include rapid organizational changes, new or expanded roles, poor team dynamics, or challenging peer relationships.

My rigorous and results-oriented coaching programs allow leaders to realize their full potential and achieve exceptional results. Whether the leader is charged with building a team, executing a new strategy, or taking on a new role, my professional development programs provide leadership skills that create value for the organization.

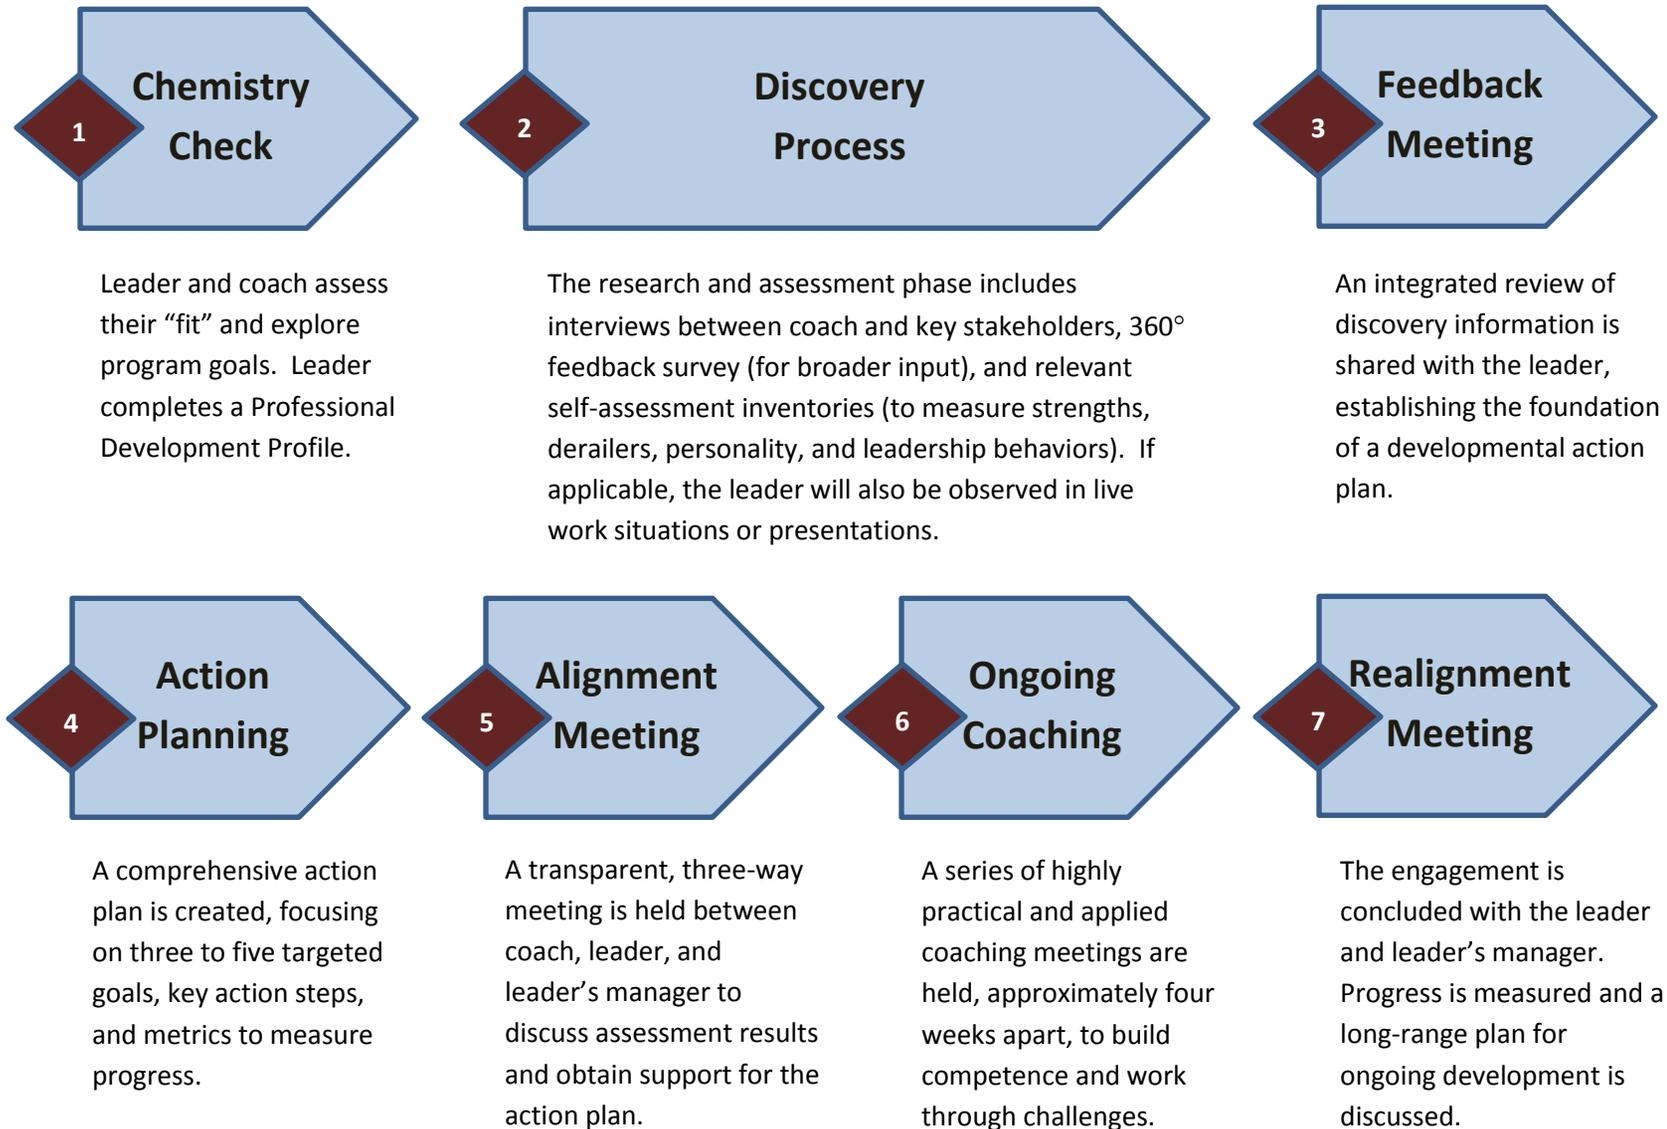

Dr. Stefani Yorges is an active leadership consultant who has engaged with over 100 clients from more than 30 companies. She specializes in positive leadership strategies, strengths-based leadership, and transformational leadership models. Her unique background as an educator, consultant, and coach helps connect leadership potential to peak performance.

Dr. Yorges has expertise in a variety of leadership models and assessment tools. Her formal education is in the behavioral sciences, receiving her Ph.D. in Industrial/Organizational Psychology from Purdue University in 1996. She is a certified executive coach, accredited by the International Coaching Federation. She is a member of the American Psychological Association (APA) and the Society for Industrial/Organizational Psychology (SIOP).

My executive coaching programs are distinct from most others in three primary ways: (1) a rigorous and comprehensive discovery process, (2) the quality and transparency of dialogue between the coach and the leader's manager, and (3) an intentional focus on driving business results. I identify and establish measurable benchmarks of success that help clients determine the impact of their coaching investment.
